Session-2023-24

Course Objectives: Arab countries are rich in natural resources but poor in Human resources. They have a wide and vast scope for small as well as big engagement in their various Offices, homes, transportation, hostel's, shops, agricultural, markets, and in other places, because they have scarcity of skilled manpower to run their businesses.

On the other hand India is vast country where facility of employment is rare. Unemployed youths from North East India specially from the state of Assam Search employment in Arab countries.

It is most important criteria to know and understand their Arabic language to deal and communicate them in every step of their business.

So the course is opened with view to train up our students to teach how to aquirefluency in Arabic language, so that the youths who want to get employment in those countries can communicate them through Arabic language. Arabic Dept.

ECO-AC-3016: Research Paper Preparation

Department of Economics

F. A. Ahmed College, Garoimari

Duration of the course is 30 Days in 3 Months , 2022-23

Course Objectives: The Research as systematic and creative actions taken to increase knowledge about humans, culture, and society and to apply it in new areas of interest. Scientific research is the research performed by applying systematic and constructed scientific methods to obtain, analyse, and interpret data. Scientific research is the neutral, systematic, planned, and multiple-step process that uses previously discovered facts to advance knowledge that does not exist in the literature. All scientific investigations start with a specific research question and the formulation of a hypothesis to answer this question. Hypothesis should be clear, specific, and directly aim to answer the research question. A strong and testable hypothesis is the fundamental part of the scientific research. The next step is testing the hypothesis using scientific method to approve or disapprove it. The research plan should include the procedure to obtain data and evaluate the variables.

In conclusion, for the good of science and humanity, research has the inevitable responsibility of precisely transferring the knowledge to new generations.
